

St. Mary's Primary School Safe Environment Policy

Purpose

Leadership and staff acknowledge the importance of an environment that contributes to the health and wellbeing of all staff and students.

This policy confirms our commitment to:

- providing a safe, inclusive and empowering school environment for students, families, staff and visitors
- delivering safety education in one or more learning key areas of the curriculum as a part of a whole school approach to health and wellbeing
- ensuring families, students and staff are key partners in promoting a safe environment.

As a health promoting school, we will promote the safety and wellbeing of children, staff and families through learning, policies, creating a safe and healthy physical and social environment, and developing community links and partnerships.

Policy statement

Background

Schools should be a safe place for everyone including students, teachers and other staff, families and members of the local community. The involvement and commitment of the whole school community is required to achieve a culture in which safe and respectful schools are everyone's concern and responsibility.

It is essential that all schools promote and provide a supportive learning community where all students feel, and are, safe. Students have a fundamental right to learn in a safe, supportive environment and to be treated with respect. School staff also have the right to teach, work and participate in an environment that is safe and supportive. Similarly, parents and other local community members have a right to feel safe, supported and respected in the school context.

Whole school engagement

It is recognised that every member of St. Mary's has an impact on students' health and can contribute to creating a safe environment. All members of our school community including staff, students, families and volunteers will be supported to meet this policy.
